Carers Corner

Caring is intrinsic to who I am. I care for my husband and two children, all while managing my own hidden disabilities and receiving support. Like many carers, I constantly juggle multiple roles and emotions. This is why being Co-Chair of the Partnership Borough Board for Unpaid Carers in Camden is so meaningful to me.

The Carers Action Plan is unique because it has been genuinely co-produced with carers like me, reflecting our authentic voices and priorities. Its five principles remind services that carers are individuals, that caring is based in relationships, and that accessible, connected support is vital. Priority areas such as mental health, hospital discharge, respite, financial advice, young adult carers and accessibility make it clear that carers' needs are finally being acknowledged. The Action Tracker ensures that these commitments lead to real change.

I am dedicated to this work because carers deserve early recognition, better support, and to be treated with dignity and respect. The Carers Centre was invaluable for me, connecting me with support and helping me rebuild confidence and skills. Together, we are creating a Camden where carers are supported, valued, and heard.
